

What Can TRAIN Do For You?

A quick “how-to” for employees and visitors

Step 1: Finding TRAIN

•Start at the ES&H Section's home page (see URL at bottom of slide)

•Click "Training Page"

The screenshot shows the 'ES&H at Fermilab' website. The header includes the Fermilab logo and the U.S. Department of Energy logo. A navigation bar contains links for Home, Phone Book, and Fermilab at Work, along with a search bar. A left sidebar lists various resources, with 'Training' highlighted. The main content area features a large banner for 'ES&H at Fermilab' with a description of their commitment to excellence. Below this are sections for 'ES&H Bulletins', 'Quick Links', and a grid of topic-specific pages including Medical, Safety, Environmental, Training, Radiation, and Emergency Management. An arrow from the text box on the left points to the 'Training' link in the grid.

ES&H at Fermilab

Fermilab continually strives to integrate excellence in environment, safety and health (ES&H) into all activities at all levels to protect the public, the worker and the environment.

Find the Fermilab ES&H Status Report [here](#). Find more ES&H tips [here](#) and [here](#).

ES&H Bulletins

Home > Training

ES&H Training

Fermilab employees, users, visitors and subcontractors must complete certain Environment, Safety and Health (ES&H) training before engaging in work activities. Training is intended to prepare you to recognize hazards, and to protect yourself and the environment by responding appropriately. Two systems work hand-in-hand to manage your training requirements, ITNA and TRAIN.

ITNA, or Individual Training Needs Assessment, is a questionnaire completed by your supervisor that determines your Individual Training Plan (ITP) based on the job tasks associated with your position. Supervisors or Fermilab points of contact complete the questionnaire because they are familiar with the employee/visitor's job duties, including the associated ES&H hazards, and must be updated once a year, or more frequently as job hazards change.

TRAIN is the system that you can use to manage your ITP. The ITP summarizes your training needs in a table. The ITP lists needed courses by name and course code, shows the training completion date, and the due date. As the due date draws near, TRAIN will send reminders to enroll in the course that is about to expire.

Individual Training Plans

Individual Training Plans

Enter one and only one of the following from this 1st section.

Fermi ID ☒ Employee ☐ Visitor ☐ Contractor ☐ Other [Name Search -- F](#)

Division/Section

Experiment Number format E999

Option 1: Select the report type.

☐ ITP (Individual Training Plan) lists only active courses with due dates.

☒ ITS (Individual Training Summary) is similar to the ITP, however it lists the most current training dates for all courses taken, regardless of the active status and due dates.

☐ ITH (Individual Training History) is a complete report of all training taken.

Option 2: Report Sort Order.

1st Sort	2nd Sort
<input type="radio"/> Supervisor	<input type="radio"/> Supervisor
<input type="radio"/> Name	<input type="radio"/> Name
<input type="radio"/> Complete Date	<input checked="" type="radio"/> Complete Date
<input type="radio"/> Due Date	<input type="radio"/> Due Date
<input type="radio"/> Course Code	<input type="radio"/> Course Code
<input checked="" type="radio"/> Course Title	<input type="radio"/> Course Title

Option 3: Qualifications.

Do you wish to include qualifications on the report?

☒ Yes ☐ No

Option 4: Additional options for ITS report only.

☐ Suppress inactive training from ITS report

☒ Suppress discontinued courses from ITS from report

Option 5: Supervisor Report.

☐ Run a Supervisor Report for the Fermi ID specified in the search criterion.

Option 1: Defaults to ITS – a summary of all training regardless of its status

ITNA: 11/09/2009 Eric D Mieland

Click on the **Course Code** to enroll in a class (if available).

COMPLETE: A course which has been completed on the indicated Complete Date.

INACTIVE: A course that was completed on the Complete Date, but is NOT required by the person's Individual Training Needs Assessment (ITNA).

NEW REQUIREMENT: A course that has not been completed, but is identified as needed training in the person's ITNA.

Other Status Possibilities Not Shown:

- **Past Due** – training was not completed before the Due Date shown
- **Due in X days** – the training Due Date is approaching in X number of days.

Due Date	Status	Class Code
4/30/2011	Complete	59776
-	Complete	43179
5/31/2011	Complete	59079
-	Complete	53702
-	Inactive	57265
9/30/2011	Complete	63516
-	Complete	43201
2/28/2010	Complete	59504
9/30/2011	Complete	59104
-	Complete	44978
-	Inactive	59081
1/09/2009	New Requirement	
-	Inactive	42953
-	Inactive	60827
-	Complete	51276
-	Complete	57213
1/30/2011	Complete	63811

Course Code	Course Title	Complete Date	Due Date	Status	Class Code
FN000364 / CR	Back Works Refresher Training	04/18/2008	04/30/2011	Complete	59776
FN000335 / CR	Back Works-Functional Activi	03/28/2002	-	Complete	43179
FN000374 / CB	Basic Computer Security	05/19/2008	05/31/2011	Complete	59079
FN000196 / CR	Beryllium Handling	01/04/2006	-	Complete	53702
PDCDF001 / CR	CDF Supervised Access	04/10/2007	-	Inactive	57265
FN000001 / CR	CPR	09/03/2009	09/30/2011	Complete	63516
FN000213 / CR	Compressed Gas Cylinder Safety	04/26/2002	-	Complete	43201
FN000324 / CR	Computer Workstation Ergonomics	02/29/2008	02/28/2010	Complete	59504
FN000003 / CR	Confined Spaces	09/22/2008	09/30/2011	Complete	59104
FN000115 / CR	Cryogenic Safety (General)	10/28/2002	-	Complete	44978
PDDZ0001 / CR	D0 Hazard Awareness	10/28/2008	-	Inactive	59081
FN000367 / CR	EMS Team Training	-	11/09/2009	New Requirement	
FN000387 / CR	Electrical Safety Orientation	03/25/2002	-	Inactive	42953
FN000010 / CR	Emergency Warden	07/15/2008	-	Inactive	60827
FN000377 / CR	Environmental Management System (EMS)	03/22/2005	-	Complete	51276
FN000399 / CR	Environmental Regulations - Federal	03/28/2007	-	Complete	57213
FN000398 / CR	Environmental Regulations - State	11/04/2009	11/30/2011	Complete	63811

The Class Code shows the roster, date, and time for the specific class this person attended.

Step 4: Employee Training Center, Continued

Employee Training Center

Individual Training Needs Assessment
(ITNA) Tutorial
What can TRAIN do for you?
ITNA
Individual Training Plans
Training Calendar
Class Schedule
Course Handout Material
Enrollment Schedule
Online Testing Center
Training Attendance Form

Individual Training Needs Assessment (ITNA) Tutorial - a slide presentation describing how to complete the ITNA process.

What can TRAIN do for you? - the slide presentation you are currently viewing that describes how employees may utilize TRAIN.

ITNA - A link to the ITNA questionnaire.

Training Calendar - view the monthly ES&H class schedule in calendar format.

Class Schedule - Click here, enter your Fermi ID, submit, and the scheduled courses are shown in list format.

Course Handout Material - Many courses have associated training materials. Find those resources here.

Enrollment Schedule - Enter any ID to find out courses to which it has been enrolled.

Online Testing Center - Select course, and enter ID complete training online (when available).

Training Attendance Form - Sign-in sheet for classroom training attendance.

Course Handout Material

TRAIN Active Course List						
Training Group: ALL						
Course Title	Requal Interval	Retention Period Years	Resp. Org	Contact Name	Hours	Reporting Category
LS000681/CR C++ Templates and Template Metaprogramming Description: To introduce and apply the syntax and semantics of C++ function templates and class templates. To understand common template-based programming practices and techniques, including generic programming, traits, concepts, and adaptors. To understand techniques of C++ template metaprogramming, including compile-time type computations, algorithms, and control structures. Reference Material: See the course description.	0	75	WR	Nicole M Gee	8	NR
LS000804/CR Accelerated C++ Short Course Description: To learn quickly how to write useful programs in modern standard C++ and to focus on solving problems. Reference Material: Instructor's web page	0	75	WR	Walter E Brown	22	NR
FN000284/CR ALARA Principles & Documentation Description: Overview of Fermilab's ALARA Program Reference Material: RCT ALARA Program	0	75	ES	Kathy J Graden	2	QL
WDRS0027/CR Altera's Quartus II Software Design Series: Optimization Description: *Define physical region constraints for an FPGA design using LogicLock regions *Manage user-defined design partitions using the Quartus II incremental compilation flow *Apply incremental compilation to the top-down & bottom-up design flows *Use Quartus II software settings to improve internal & I/O timing, reduce logic resource usage & lower power consumption *Choose recommended HDL coding styles *Run Design Space Explorer to select optimal setting for full or partial designs Reference Material: TimeQuest Timing Analyzer (free online training) , The Quartus II Software Design Series: Foundation (free online training)	0	75	WR	Nicole M Gee	8	NR
WDRS0026/CR Altera's Quartus II Software Design Series: Timing Analysis Description: *Perform basic timing analysis with TimeQuest *Create all required timing constraints (clock, I/O, multicycle, false paths) to fully constrain your FPGA design *Write & manipulate SDC files for analysis & to control the compilation *Apply timing constraints to the design to guide the Fitter to meet timing requirements *Analyze timing with detailed TimeQuest reports Reference Material: Altera's Quartus II Software Design Series: Foundation , TimeQuest Timing Analyzer	0	75	WR	Nicole M Gee	8	NR
FN000251/CR Asbestos Awareness Training	0		ES	Dave Baird Jr	1	NR
